Transforming enterprise point of sale for customers, operators and venues.  
Follow

**About us**  
Clover Sport, formerly Bypass, is the leading innovator in enterprise point of sale systems, robust back office management tools, and rich insights engines for the multi-site food & beverage industry.  
Our approach helps more than 175 professional & collegiate sports venues and national restaurant chains accelerate their profit, efficiency, and guest experience well beyond the levels achieved with legacy solutions. Clover Sport makes this happen with tablet POS terminals and a cloud-enabled open API platform broad enough to serve the full spectrum today's needs and agile enough to rapidly support future requirements.  
The company has deployed over 11,000 devices at a cost, pace, and ease of integration never before possible.
